

Canyon Crest School Community Council
September 5, 2018

Present: Darren Johnson, Jayme Gandara, Renea Dietrich, Jessica Haslom, Melinda Powell, Emily Weaver, Alison Parker, Alex Judd, Marci LeMonnier

All council members introduced themselves.

We discussed what days and times would work best for us. We will meet on the second Tuesday of each month from 4:00 - 5:00 p.m. The next meeting is October 9th. If a break coincides with the beginning of the month (i.e. Spring Break) we will meet on the third Tuesday.

The new state testing system, RISE, will replace SAGE. We discussed what that means for our students and what impact it will have on our goal setting. The parents also requested that we share more student data with them and make it meaningful. We debated what we should use as the measure of our student success. We will continue to use SAGE data in our goals.

Dr. Johnson went over the function and duties of the council. We watched the video "Parents and Councils" from schoolandtrust.org. Alison motioned to approve Renae as the council chair. Emily seconded and all voted to approve. Melissa motioned for Marci to be the vice, Renae seconded, and all approved. We will fulfill our responsibility to Digital Citizenship by having NetSmartz come speak to our students in January. We will also invite someone from the district to speak to the council.

Our agenda for next month will be to discuss whether or not we met our goals and begin forming next year's plan.

We finished the meeting by taking a tour of our new Spanish guided reading library.
